Response to Line 510 - Service Quality Standards and Consumer Protection Rules

Compliance – Voice and Broadband

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The FCC found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”⁴

North Texas Telephone Company (“Company”) hereby certifies that its voice service complies with applicable service quality standards and consumer protection rules under the Texas Administrative Code, Title 16, Part II, as established by the Public Utility Commission of Texas. These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff which discloses rates, terms and conditions of service to customers pursuant to Subchapter J

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“*2005 ETC Order*”).

² *Id.* at para. 28.

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at n. 71.

requirements in Sections 26.201-26.230; (2) adherence to state consumer protection requirements governing telephone providers as identified in Subchapter B, in Sections 26.21-26.37; and (3) service quality standards requirements as identified in Subchapter C, Sections 26.51 -26.57. In addition, the Company complies with numerous federal consumer protection standards including, but not limited to: (1) Truth-in-Billing Rules outlined in 47 CFR § 64.2401; and (2) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

For its broadband service, Company hereby certifies that while there are no applicable state broadband service quality standards and consumer protection rules yet established under the Texas Administrative Code by the Public Utility Commission of Texas, the Company discloses rates, terms and conditions on its public web site and the Company complies with applicable federal and state customer protection standards generally applicable to all businesses operating in Texas. In addition, the Company adheres to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3. The Company furthermore will comply with all requirements set forth in the *2015 Open Internet Order*, as it applies to the Company.

**Response to Line 610 - Ability to Function in Emergency Situations for
Voice and Broadband**

North Texas Telephone Company (“Company”) hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2)¹ and the Texas Administrative Code. The Company’s network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations also allows the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, the Company is able to function under emergency operations in accordance with Public Utility Commission of Texas Substantive Rules §26.51 *Reliability of Operations of Telecommunications Providers* and §26.52 *Emergency Operations* which include obligations for continuity of service and emergency operations planning and service provision capability for dominant carriers. Any central office not equipped with permanently installed standby generators contains as a minimum four hours of battery reserve without voltage falling below the level required for proper operation of all equipment. In addition, all central offices without installed

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to “demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”

emergency power facilities have a mobile power unit available which can be delivered and connected on short notice.

The Company's standby generators and battery back-up equipment support both voice and broadband network equipment in the event of an emergency situation.

LOCAL EXCHANGE SERVICE

IV. LIFELINE PROGRAM

The Lifeline Program is a retail local service offering designed to make telecommunications services available at reduced rates to qualifying low-income customers.

T

A. General

1. A qualifying low-income customer subscribing to the Lifeline Program shall receive federal reductions pursuant to 47 C.F.R. Section 54.403 and state reductions to their monthly tariffed residential local exchange access line rate.
2. Nothing in this section shall prohibit a customer who is otherwise eligible for the Lifeline Program from obtaining and using telecommunications equipment and services designed to aid such customer in utilizing qualifying telecommunications services.
3. Lifeline Program reductions do not apply to surcharges, taxes, long distance service, 976 and other information related telecommunications services, and optional services such as custom calling features. Customers may obtain these services, where available, at their discretion.
4. Assistance is provided to the qualifying low-income customer by:
 - a. A one-year, non-interest assess, deferred payment plan for payment, up to \$200, of service connection charges associated with the establishment of telephone service for the qualifying low-income customer. Service connection charges include those charges, specified in Section 2 of this tariff, customarily assessed for the establishment of telephone services.
